THE RIOTERS.

The Notorious Bud Lindsay is Released on a \$5,000 Bond.

Other Rioters Have the Same Privilege Proof Shows That There Was An Oath-Bound Organization—More Rioters Agrested at Oliver Springs, Tean.

KNOKVILLE, Tenn., Aug. 27.-The examinations of the prisoners at Coal Creek have come to a sudden termination. Since Thursday that of D. B. Monroe has been in progress before Justice Kincaid, of Clinton. Many witnesses were examined, and much damaging evidence adduced.

The proof shows that there was an oath-bound organization, and that these men were numbered and did not go by names, yet there is scarcely a man about Coal Creek or Oliver Springs who does not know who was in the parish mobs. They know positively each from their respective neighborhood, but on the witness stand they had most defective memories. But sufficient evidence was found against Monron, a leader, to send him to the gal-

When the evidence was in M. B. Lindsay, U. S. attorney for the Eastern district of Tennessee, made a short talk, claiming that there was no charge proven which was not bailable. The prosecutor quoted the law, showing that any man with a gun or other deadly weapon, who was actively taking part in a mob which caused death was guilty of murder in the first degree. Justice Kincaid decided the case not bailable, and remanded Monroe to jail to await trial.

There are a large number of other prisoners. They became panic-stricken at once, and waived examination under the advice of the attorney. Those who can give bond will do so, where the cases are deemed bailable, and as Monroe is held to be the leader, it is now thought all will be allowed bail if they can give it. If not, they will be sent to

Pud Lindsay was allowed bail in \$5,000, which his brother furnished. He got on the train and started to Knoxville at 4 p. m., but a squad of boys from Fort Anderson did not like his actions and went into the train and rearrested him. They took him to the guard-house and locked him up. Gen. Carnes immediately issued a peremptory order providing a guard to protect him and to see that the enraged militiamen who have been in the fort so long did him no injury. Monroe was brought here at 5:30 p. m. and lodged in jail. He refused to be interviewed.

OLIVER SPRINGS, Tenn., Aug. 27 .- A squad of soldiers from Coal Creek, under command of Lieut. Patterson, suddenly appeared at Oliver Springs Friday and began making arrests. They returned in the afternoon with ninety prisoners to Coal Creek, having succeeded in arresting every man they wanted. In and around Oliver Springs the insurrection is a thing of the past, and the miners admit that they are whipped. Peace prevails, and the majority of the miners seem disposed to claim that they were driven into open lawlessness by the gang which came from Coal Creek and over-

STRUCK BY LIGHTNING.

Three Magazines in Texas Blown Into the Air-People Injured. GAINESVILLE, Tex., Aug. 27 .- Three Powder magazines belonging one each to the Dupont, Rand & Nally, and Hazard Powder Companies, blew up Thurskegs of powder in the magazines. Lightning had been darting through the skies all forenoon, and at 1 o'clock a bolt struck one magazine, which exploded, at once wiping the two others

from the face of the earth. The concussion was terrific, the earth trembled and men, women and children rushed to the streets. The shock broke thousands of windows, and in some instances ruined houses a mile distant. The explosion was heard at Whitesboro, 15 miles distant. Cattle grazing near the magazines were killed and terribly mangled.

Every house within a mile of the magazines was badly damaged, and in many of them the inmates were thrown on the floor and badly injured. Half a dozen persons received dangerous wounds from broken glass and falling timbers. The total loss will amount to \$15,000.

innereds Dying Delly From Cholers in Hamburg – The New Cases Average Over Five Hundred a Day.

Hamsune, Aug. 29.—The number of fresh cases of cholers on Saturday was 469 and the number of deaths 197. In-complete returns for the day show that there are at least 500 fresh cases. The number of deaths has not yet been as-certained. The mortality from cholera has raised the number of funerals daily from an average of 85 to 830. The city is not yet panic stricken, but the presence of the plague is apparent everywhere.

The streets Sunday were deserted for the first time since the disease became prevalent. The usual Sunday exouralone were abandoned. No excursion trains were run, and the steamers which usually take out parties lay idle at the docks. Theaters, circuses and music halls were empty. Most mer-chants and shoplespers will stick to their business, but Monday or Tuesday may see trade practically suspended and the men who constitute the busiand the men who constitute the busi-ness world here leaving with their fam-lies for other parts of Germany. The persons of wealth and no regular cocu-pation have gone already to Bostock, Luebeck and Flensburg and other sea-side resorts. Diseatisfaction with the measures adopted by the sanitary authorities and with their policy of trying to hold back the worst news is largely responsible for the growing unre which may culminate almost at any hour in a panic. The sale of fruit in the city has become a dead branch of trade. Dealers who handle southern fruits find their stocks practically a Deslers who handle southern

total loss The funerals which take place constantly are conducted without the usual estentation. Not more than two or three carriages follow a hearse, and in many cases the body is taken to the grave without a friend or relative to accompany it. The services are limited to a prayer, or at most to a prayer and hymn. This simplicity of ceremony is the result of the repeated warnings of the sanitary authorities and private physicians. The Hamburg senate has requested an extra credit of 3,000,000 marks for medical purposes. In Altona, just below here, there were 47 fresh cases Sunday and 19 deaths.
